*The Winchester/N.R.A. Marksmanship Qualification Program is a skill development program. It has been the flagship for N.R.A. training development programs since 1903. Instructors and coaches use the qualification as a guideline to train new shooters of all ages in their clubs. Individuals who are not involved in organized clubs also use the qualification program as a tool to develop their own shooting skills.*

*The courses of fire in the qualification Program are designed to take shooters from beginning skill levels (Pro-Marksman and Marksman) through intermediate levels (Marksman 1<sup>st</sup> Class, Sharpshooter and Expert) up to the nationally recognized skill level and pinnacle of the program, Distinguished Expert.*

*Based on the honor system, shooters acquire the large discipline patch at the onset of the program and as each rating is earned, they will be entitled to all of the corresponding awards for that rating. Each rating level will receive a skill rocker and certificate award that recognizes the achievement.*
